

Analyse it Smarter

Who should use Analyse it Smarter?

Sharing the right information with the right department at the right time, Analyse it Smarter saves time and money, improves efficiency, increases awareness and enables well-informed decision-making. Analyse it Smarter helps you to meet the desired service objectives, to serve your clients better and to improve your market position.

Report types:

Analyse it Smarter brings every aspect of your shipping life cycle together in a single reporting platform. Based on your company requirements, you can choose the degree of depth in details of reporting which you can access through your Analyse it Smarter dashboard, based on real-time shipping data.

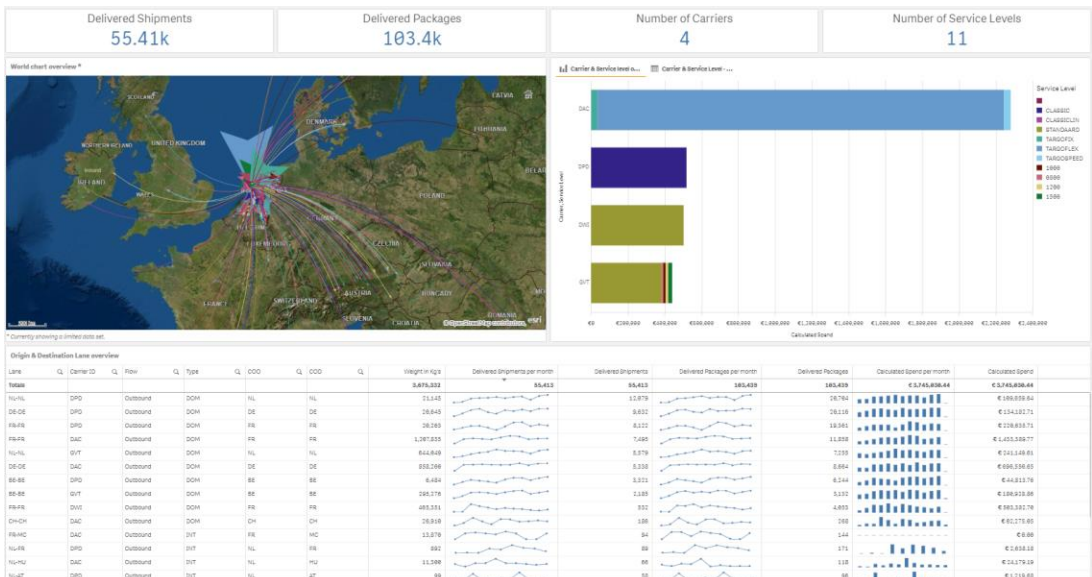

Is your company looking to:

- ✓ Increase profitability and decrease costs
- ✓ Drive operational excellence
- ✓ Increase customer satisfaction by improving delivery performance
- ✓ Integrate to, and gain insight from, third parties
- ✓ Improve efficiency within the shipping process
- ✓ Automate and unify reporting processes across multiple company locations

Analyse it Smarter is created with focus on different internal customers - from corporate management and logistic managers to line level employees and everyday users, providing both important strategic and valuable operational insights.
