

BOOK AND LABEL PRINTING MODULE

Easily choose the best carrier for your shipment

ALL RELEVANT SHIPMENT DETAILS ARE
AUTOMATICALLY COMMUNICATED TO YOUR CARRIER

Having the ability to choose from a wide range of carriers does not always make the logistic world easier. Carriers have different rate structures, specific ways of booking shipments and often require customized labels to be used. When controlling your freight, cost is increasingly important. The accompanying complexity should not limit the number of carriers used. You need a tool to support you in making this search easier. A tool that helps you to choose the right carrier option in just a few clicks.

Benefits

- ★ 600+ established carrier integrations.
- ★ Carrier communication according to carrier's preference. Leading to an efficient booking process.
- ★ Booking is fully automated, providing all relevant shipment details to the selected carrier.
- ★ Labels are generated automatically, can be printed directly from the application and will always meet your carrier's needs.
- ★ Tracking numbers and other relevant information provided by your carrier will automatically be assigned to the booked shipment.

Compare your shipping rates

ShipitSmarter offers you the possibility to compare all of your shipping rates in one place. After selecting the most suitable carrier and service, ShipitSmarter takes care of the complete booking process. All relevant shipment details are automatically communicated to your carrier via electronic service integration. Depending on carrier capabilities the integration is established using REST api's, Electronic Data Interchange (EDI), email or another carrier protocol.

Shipping labels are fully configurable and can be printed directly. When carrier specific labels are needed, the labels are predefined, and carrier approved. This is how shipping is done smart and easy.

Thanks to the link between ShipitSmarter and our warehouse management system, scanning a box is all that is needed to print out the right shipping label. ”
